

IM Manager

- A consolidator for IM windows... improve your on-screen activity

Designed de-clutter and improve the **management of your instant messaging conversations...** the unique iTmarine 'IM Manager' offers improved organisation and control (and valuable screen space) mechanism for effective broking & trading.

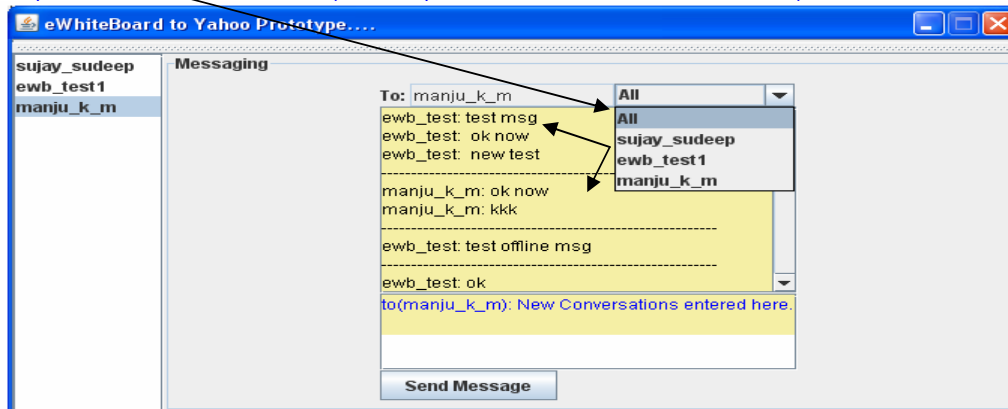

A Single Screen Consolidator

From the eWB (whiteboard) messaging format, simply press the Yahoo! Or MSN! Tab to instantly access your instant messages without the need to reload an application or deal with the constant window popping!

Using the IM Manager, **ALL** of your most recent and previous conversations are available to you, whether *at the office, at home, travelling* or based in your *overseas office!*

Sample view of **ALL** conversations, auto-separated into individual conversations, within one screen...

A perfect solution for managing message information, re-gaining screen-space, reducing filing and saving on search-time, yet **improving response time to client requests** - giving you more time for analysis and most important of all, personal client service!
